Linea Pro™

NexusConnect™

Mobilize your Enterprise

The Linea Pro NexusConnect is a high performance standard and long range scanner designed to work with iOS or Android Devices. This enterprise grade scanner delivers long range (up to 45+ feet), quick, and reliable scans. Internal battery and Qi charging provide additional working time for iOS or Android hand held devices. Designed to survive industrial conditions, the NexusConnect is IP65 rated and drop tested against MIL-STD-810G standards.

STANDARD/EXTENDED RANGE

Next Generation barcode scanning technologies that allow scanning barcodes reliably from 6 inches to 45+ feet.

CERTIFIED-RUGGED

Form-fitted solution offers IP65 rating to protect against water and dust. It also has drop protection tested against MIL-STD-810G standards.

ERGONOMIC DESIGN

The pistol grip design allows for your employees to naturally move quicker while still staying connected. The lightweight design keeps this device comfortable to carry and easy to operate while maintaining a quick workflow.

VERSATILITY

The NexusConnect is form-factor agnostic and compatible with iOS or Android devices as well as protective cases such as the Otterbox® uniVERSE line. This allows the user to diversify their fleet of mobile devices.
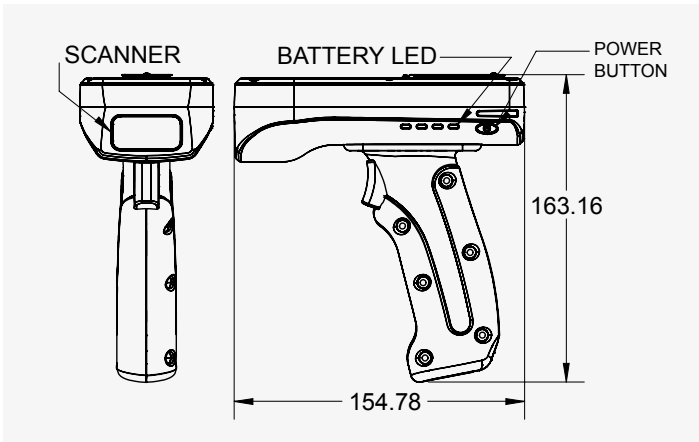

COMPREHENSIVE SOFTWARE

This device is compatible with a range of software platforms and includes an SDK to integrate into existing platforms without difficulty. Our suite of software tools helps you get the most out of your device, from data population to printing.

WIRELESS BATTERY SHARING

The internal battery provides additional charge to wireless charging capable devices. The NexusConnect's large battery is shared with the attached host device through Qi wireless charging. This means that additional cables are not required to charge the iOS or Android device.
